## Formatting

- **To Use the Elements Gallery:** The Elements Gallery is a collection of built-in objects you can quickly insert in your documents. To display or hide the Formatting Palette, click the **Elements Gallery** button on the Standard toolbar, or click the tab for the type of object you want to insert. Use the buttons in the Elements Gallery to scroll through categories and types of elements. Click an element to insert it in the document.
- **To Use the Formatting Palette:** The Formatting Palette is a collection of formatting options, like a bunch of mini-toolbars in one moveable palette. To display or hide the Formatting Palette, click the **Toolbox** button on the Standard toolbar. Select the text or object you want to format and use the formatting options in the Formatting Palette to format the object.
- **To Format Selected Text in the Font Panel:** Change the style of text by clicking the **Bold** button, **Italics** button, or **Underline** button. Change the font type by selecting a font from the **Font list**. Change the font size by selecting the pt. size from the **Font Size list**. Or, use the **Font Size slider** to preview the text size as you click and drag the slider.
- **To Copy Formatting with the Format Painter:** Select the text with the formatting you want to copy. Click the **Format Painter** button on the Standard toolbar and drag across the text to which you want to apply the formatting. Double-click the **Format Painter** button to apply the formatting multiple times.
- **To Change Paragraph Alignment in the Alignment and Spacing Panel:** Select the paragraph(s) and click the appropriate alignment button (Left, Center, Right, or Justify).
- **To Indent a Paragraph in the Bullets and Numbering Panel:** Click the **Increase Indent** button or drag the **Left Indent marker** on the ruler.
- **To Decrease an Indent in the Bullets and Numbering Panel:** Click the **Decrease Indent** button.
- **To Add a Tab Stop:** Click where you want to add the tab on the ruler. Or, select **Format** → **Tabs** from the menu. Change the settings in the dialog box to set the location, alignment, and leader for the tab stop. Click **Set** to add the tab stop to the document.
- **To Change the Tab Alignment:** Click the **Tab selector box** on the ruler before adding the tab.
- **To Adjust or Remove a Tab Stop:** Click and drag the **tab stop** to the new position on the ruler. Drag the **tab stop** from the ruler to remove it. Or, select **Format** → **Tabs** from the menu. Select the tab stop you want to remove and click **Clear**.
- **To Change Paragraph Line Spacing:** Select **Format** → **Paragraph** from the menu, click the **Line Spacing** list arrow, and select the spacing option.
- **To Create a Bulleted or Numbered List in the Bullets and Numbering Panel:** Select the paragraph(s) you want to bullet or number and click the **Bullets** button or the **Numbering** button.
- **To Add a Border:** Select the paragraph and select a border from the **Border** button on the Formatting toolbar.
- **To Change a Document's Margins:** Select **Format** → **Document** from the menu, click the **Margins** tab and adjust the margins.
- **To Change a Page's Orientation:** Select **File** → **Page Setup** from the menu, select the orientation and click **OK**.
- **To Add or View a Document Header or Footer:** Select **View** → **Header and Footer** from the menu.
- **To Insert a Break:** Select **Insert** → **Break** from the menu and select the type of break you want to insert.
- **To Create Newspaper Columns:** Click the **Columns** button on the Standard toolbar and drag to select the number of columns you want.

## Tables

- **To Insert a Table:** Click the **Insert Table** button on the Standard toolbar and select the number of columns and rows from the grid. Or, select **Table** → **Insert** → **Table** from the menu.
- **To Draw a Table:** Select **Table** → **Draw Table** from the menu.
- **To Adjust Column Width or Row Height:** Drag the right border of the column or drag the bottom border of the row.
- **To Delete a Column or Row:** Select the column or row. Open the Table panel and click the **Delete Table** list arrow. Select **Delete Columns** or **Delete Rows** from the list. Or, select **Table** → **Delete** → **Columns** or **Rows** from the menu. Or, control-click the row or column and select **Delete Columns** or **Delete Rows** from the contextual menu.
- **To Insert a Column or Row:** Select the column or row where you want the new column or row to be inserted. Open the Table panel and click the **Insert Table** list arrow. Select **Insert Columns** or **Insert Rows** from the list. Or, select **Table** → **Insert** → **Columns** or **Rows** from the menu.
